

## OR4KF Rabbit pAb

CatalogNo: YN2633

### Key Features

#### Host Species

- Rabbit

#### Reactivity

- Human

#### Applications

- WB,ELISA

#### MW

- 38kD (Observed)

#### Isotype

- IgG

### Recommended Dilution Ratios

**WB 1:500-2000**

**ELISA 1:5000-20000**

### Storage

#### Storage\*

-15°C to -25°C/1 year(Do not lower than -25°C)

#### Formulation

Liquid in PBS containing 50% glycerol, and 0.02% sodium azide.

### Basic Information

#### Clonality

Polyclonal

### Immunogen Information

#### Immunogen

Synthesized peptide derived from human protein . at AA range: 50-130

#### Specificity

OR4KF Polyclonal Antibody detects endogenous levels of protein.

### Target Information

#### Gene name

OR4K15

|                              |                                                                                                                                                                  |                         |                          |
|------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------|--------------------------|
| <b>Protein Name</b>          | Olfactory receptor 4K15 (Olfactory receptor OR14-20)                                                                                                             |                         |                          |
|                              | <b>Organism</b>                                                                                                                                                  | <b>Gene ID</b>          | <b>UniProt ID</b>        |
|                              | Human                                                                                                                                                            | <a href="#">81127</a> ; | <a href="#">Q8NH41</a> ; |
| <b>Cellular Localization</b> | Cell membrane; Multi-pass membrane protein.                                                                                                                      |                         |                          |
| <b>Function</b>              | Caution:It is uncertain whether Met-1 or Met-25 is the initiator.,Function:Odorant receptor<br>.,similarity:Belongs to the G-protein coupled receptor 1 family., |                         |                          |

## Validation Data

Western blot analysis of lysates from PC12 cells, primary antibody was diluted at 1:1000, 4°over night
